

# Independent Pallet Storage and Distribution

# ABOUT US

Established in 1970, Stan Robinson (Stafford) Ltd is an independent pallet network with our head office based in Stafford. We also have three additional depots in Devon, Durham, and Glasgow, allowing us to provide nationwide delivery services. We hold accreditations including FORS Bronze, BSI 9001, and BSI 50001. Each facility is managed by industry experts with dedicated quality and compliance teams.

## TRANSPORT AND DISTRIBUTION

- Stan Robinson with over 170 vehicles offers a nationwide pallet delivery service utilising our own night trunking system between all four depots.
- Our services include next day or economy delivery for single pallets up to full loads.
- Specialising in the transportation of hazardous goods, the majority of our drivers are ADR trained.
- All goods are collected and delivered using Stan Robinson vehicles.
- Our vehicles are equipped with online tracking systems, enabling real-time monitoring of every consignment.
- Drivers are equipped with Smart Driver Interface (SDI) units for real-time information capture.
- Customer service teams are available at each depot to assist with queries.
- A customer portal is available for accessing information on arrival times, customer signatures, and PODs.
- To ensure vehicle reliability and reduce downtime, we have our own workshop facilities at each depot, all linked by Fleet Management software.
- For vehicle and trailer MOT, we have an onsite Authorised Testing Facility operated by DVSA.
